

Building a Bridge to Better Health, Better Care and Better Value

The Path to Healthcare Value: Lowering Costs and Improving Outcomes

March 16, 2016 - The Olmsted – Louisville, KY

CONFERENCE AGENDA - TENTATIVE

7:45-8:30	<p>Breakfast <i>Networking and Exhibitor Booths</i></p>
8:30-8:40	<p>Welcoming Remarks Kentuckiana Health Collaborative</p>
8:40-9:45	<p>Making MACRA Work: Implementing Value-Based Payment and Improving Care in the New Environment Elizabeth Mitchell, President and CEO, Network for Regional Healthcare Improvement</p> <p>Now more than any time in U.S. history, consumers, providers, and purchasers need meaningful information on quality, cost, and experience in a competitive, value-based healthcare environment. Elizabeth Mitchell will provide you with the most current updates on measurement development and payment reform from CMS; she was recently appointed as the Vice Chair to the federal committee that will advise the Secretary of Health and Human Services how to transform Medicare to deliver better care at lower costs under the Medicare Access and CHIP Reauthorization Act of 2015 (MACRA). Elizabeth will discuss her leadership with The Center for Healthcare Transparency and the bold vision for making healthcare information available to 50% of the U.S. by 2020. Hear how Regional Healthcare Improvement Collaboratives (RHICs) across the nation are driving quality and cost measurement, employer and consumer engagement, and payment and delivery reform to drive quality and affordable healthcare.</p>
9:45-10:15	<p>Break <i>Networking and Exhibitor Booths</i></p>

12:15-1:15	<p>Lunch <i>Networking and Exhibitor Booths</i></p>
1:15-2:05	<p>Integrating Comprehensive Medication Management to Optimize Patient Outcomes: Why is it Critical for Transforming Healthcare and Reducing Costs? Terry McInnis, MD MPH FACOEM, President, Blue Thorn Inc., Health Care Consulting</p> <p>Everyone talks about the “Triple Aim.” Don’t you think we need a real U.S. solution in “how” to save millions of lives, reduce billions in cost, greatly enhance provider satisfaction, and increase patient access in our move to value? Think- 85+% of the means by which we prevent and control chronic disease is by medications- getting the drugs right offers such a solution. The Patient-Centered Primary Care Collaborative (PCPCC) guide- Integrating comprehensive medication management to Optimize Patient Outcomes outlines a practical and systematic approach to optimize patient outcomes by effectively identifying and resolving drug therapy problems as a key to successful PCMH/ACO efforts. This session will describe how diverse systems have successfully integrated CMM and the incredible impact on quality outcomes, reductions in overall cost, and patient and provider satisfaction.</p>
2:05-3:00	<p>An Overview of Population Health Management Scott Conard, MD, President & Founder Converging Health & Family Physician</p> <p>Health benefits are a valuable tool to align employers and their employees (a.k.a. patients). Matching at-risk employees with the high value doctors and programs give them the best chance of staying healthy — and to minimize costs. Dr. Conard has unique expertise in working with employers to design accountable systems to integrate and leverage the actions of employees, their dependents, benefits departments, company leadership, key healthcare vendors, and the medical community to the greatest degree possible.</p> <p>In this presentation, Dr. Conard will provide an overview of his work with specific employers and their successes in improving the health and wellness of employees and their dependents by:</p> <ul style="list-style-type: none"> • Helping the healthy to be well and stay well; • Helping those who are at risk to decrease the burden of developing disease, or to

	<ul style="list-style-type: none">• more effectively manage the diseases that have already emerged; and, Utilizing the health care system more effectively. <p>His focus on the quality of health care employees and their dependents receive emphasizes:</p> <ul style="list-style-type: none">• A strong foundation of primary and preventive care;• Implementing specific evidence based battle plans for metabolic syndrome, cardiac, cancer and musculoskeletal conditions; and,• Holding providers (and their patients) accountable for improved outcomes
3:00	Closing Remarks
