WellCare of KY	Kate Miller	Manager, Quality Improvement-Behavioral Health
White House Clinics	Brittany Arthur	Clinical Data Analyst

Meeting Items

Welcome and Introductions

Stephanie Clouser welcomed everyone to the meeting and gave an overview of the goals for the meeting. She went through the member roster and each member who was present introduced themselves to the group.

Selection Process Overview

Stephanie Clouser reviewed the measures selection process that each of the five subcommittees went through to determine their 2019 recommendations to the subcommittee. This included either confirming or requesting re-evaluation for each measure currently on the rubric, selecting potential additions from the crosswalk (or elsewhere), using a rubric to score and prioritize measures, and together deciding which of the measures to recommend for addition or removal.

Subcommittee Recommendations and Discussion

Subcommittee members presented their recommendations to the oversight committee for modifications to the Kentucky Core Healthcare Measures Set. In the event that a subcommittee member wasn't available to present, Stephanie Clouser presented the group's recommendations:

- Preventive Care – Michael Hagen
- Behavioral Health – Stephanie Clouser
- Chronic and Acute Care – Stephanie Clouser
- Pediatric Care – Michael Kuduk
- Cost, Utilization, and Experience – Kayla Rose

See the attached PDF for details about the recommendations.

KCHMS Adoption

Committee members had some high-level discussion about adoption of the KCHMS and future review and modification efforts.

Next Steps

Stephanie reviewed what needed to be done between this meeting and the final meeting on August 20. There will be a public comment period, as well as a form for committee members to fill out their recommendations.

Adjourn

Stephanie thanked everyone for attending and ended the meeting. The next and final meeting will be on August 20, 2019.

Proposed 2019 KCHMS Changes

Keep	Modify	Remove	Add
