DISCUSSION QUESTIONS

- Does your health plan cover all three FDA approved medications for opioid use disorder (methadone, naltrexone, buprenorphine)?
- What substance use disorder treatments are covered on your plan and have you evolved your coverages this plan year?
- What barriers do your employees have in accessing mental health services? What percentage of mental health is out of network?
- Are telemedicine technologies a part of your health offerings? Are any available specifically for behavioral health? What is utilization? How effective has it been?
- Are you interested in using alternative payment models, specifically bundled payment models such as P-COAT, ARMH that hold providers accountable for outcomes and following evidenced-based guidelines?

COHORT BASICS

Problem Statement

With an unprecedented rise in opioid misuse and opioid-related overdoses in the United States and Kentucky, employers are experiencing challenges related to productivity, absenteeism, hiring, retention, healthcare costs, workplace culture, and employee health.
