

## Erica Louden, MD, PhD

---

### **Reproductive Endocrinologist and Infertility Specialist | Vios Fertility Institute**

Erica Louden, MD, PhD is a highly-skilled scientist and reproductive endocrinologist and infertility specialist focusing on all areas of reproductive health. Dr. Louden's research efforts focus on access to care for cancer and infertile patients as well as the novel mechanism to preserve primordial oocytes during chemo and radiation therapy.

Dr. Louden, a graduate of Wayne State University School of Medicine, completed her residency in Obstetrics and Gynecology at Wayne State and her fellowship in Reproductive Endocrinology and Infertility at Augusta University. During her medical training, Dr. Louden received numerous awards including the DMC/Wayne State OBGYN Research Team Leader and presented Grand Rounds on Mullerian Anomalies, a topic on which published. In addition, she authored articles for several medical journals and textbooks, clinical studies, and has had her research covered in peer-reviewed publications.

Dr. Louden is an active member of many medical associations, including the American Society of Reproductive Medicine, Endocrine Society, the American Association of Gynecologic Laparoscopists and the American College of Obstetrics and Gynecology.
